

AMENDMENTS TO THE CLAIMS

1. (Original) An individual wrapping body comprising:
 - an interlabial pad with a size capable of being smoothly inserted between female labia; and
 - an individual wrapping container for covering and enclosing the whole portion of said interlabial pad,
 - wherein a processing for suppressing the number of live microorganism is applied to said interlabial pad during manufacturing and / or after manufacturing, and the number of live microorganism is suppressed to equal to 100 or less even after a period of six months from the manufacture.
2. (Original) An individual wrapping body as claimed in claim 1, wherein said processing is a disinfection processing.
3. (Original) An individual wrapping body as claimed in claim 2, wherein, by said disinfection processing, said interlabial pad is sterilized immediately after manufacturing.
4. (Currently amended) An individual wrapping body as claimed in ~~any one of claims~~ claim 1 to 3, wherein said interlabial pad comprises:
 - a permeable surface side sheet facing a body side;
 - a back side sheet facing a garment side, the back side sheet being bonded to said surface side sheet; and
 - an absorber included between said surface side sheet and said back side sheet.
5. (Currently amended) An individual wrapping body as claimed in ~~any one of claims~~ claim 1 to 3, further comprising a mini sheet piece on the garment side surface of said back side sheet,

formed; and said package is formed by bonding said lid towards said main body of the container.

12. (New) An individual wrapping body as claimed in claim 2, wherein said interlabial pad comprises:
 - a permeable surface side sheet facing a body side;
 - a back side sheet facing a garment side, the back side sheet being bonded to said surface side sheet; and
 - an absorber included between said surface side sheet and said back side sheet.
13. (New) An individual wrapping body as claimed in claim 3, wherein said interlabial pad comprises:
 - a permeable surface side sheet facing a body side;
 - a back side sheet facing a garment side, the back side sheet being bonded to said surface side sheet; and
 - an absorber included between said surface side sheet and said back side sheet.
14. (New) An individual wrapping body as claimed in claim 2, further comprising a mini sheet piece on the garment side surface of said back side sheet,
 - said mini sheet piece having one or more bonded areas in each side area in the longitudinal direction of said back side sheet; and
 - an unbonded area in the lateral direction of said back side sheet; said unbonded area forming an opening for inserting a finger between said mini sheet piece and said back side sheet.
15. (New) An individual wrapping body as claimed in claim 3, further comprising a mini sheet piece on the garment side surface of said back side sheet,

said mini sheet piece having one or more bonded areas in each side area in the longitudinal direction of said back side sheet; and

an unbonded area in the lateral direction of said back side sheet; said unbonded area forming an opening for inserting a finger between said mini sheet piece and said back side sheet.

16. (New) An exterior container, comprising a package for packaging two or more said individual wrapping bodies as claimed in claim 2, wherein said package comprises:

a main body of a container and

a lid capable of opening and closing for covering an opening part of said main body of the container.

17. (New) An exterior container, comprising a package for packaging two or more said individual wrapping bodies as claimed in claim 3, wherein said package comprises:

a main body of a container and

a lid capable of opening and closing for covering an opening part of said main body of the container.
